## Overview

BSc 4th Year Chemistry General chemistry-III is the Major subject for BSc 4th Year Chemistry group students which has full marks of 100 and Pass marks of 35. As per TU's latest Syllabus it has 3 sections (inorganic, organic, and physical) and there will be long questions of 9 marks (for physical it is 10) and remaining short questions from each portion. In this Course, You will get Complete Lectures on [BSc 4th Year](#) Chemistry along with Live Sessions, Chapter PDF notes, Practical Help, and other study materials.

## BSc 4th Year Chemistry - III (403) Syllabus

### INORGANIC PORTION

- Coordination compounds ( for short questions)
- Bonding and application of coordination compounds (for long and short questions)
- Inorganic reaction mechanism (for short question)
- Elementary study of carbonyl and nitrosyls( for short only )

### ORGANIC PORTION

- Bio-organic Chemistry( for both)
- Carbohydrates(for both )
- Lipids( for short )
- Protein and nucleic acid (for short and long )

### PHYSICAL PORTION

- Chemical kinetics ( for long and short )
- Modern ElectroChemistry( for short)
- Polarization and commercial cell( for both)
- Corrosion and metallic materials ( for short only)

### Key Learning Objectives

- Expand your understanding of Chemistry
- Learn about general chemistry-III and grab more chemical knowledge
- Solving Chemical problems
- Clear the Concepts and do your Best on the Exam

### BSc 4th Year Chemistry - III Course Includes

After enrolling in this course you will get everything you need on GENERAL CHEMISTRY-III BSc 4th Year to get 50+ marks on the Final Exam. The major benefits of Joining Hamromaster Classes are:

- High-Quality Chapter Lectures

- In-depth Knowledge of Each Chapter
- Exam Focused Classes
- Each Chapter PDF Notes
- Live Revision Classes (Included)
- Complete TU Questions Solution
- Model Questions & Model Exams
- Chapterwise Assignments Included
- Dedicated Group for Discussion
